MAINE Indoor Air Quality Conference 2014

"Because we live, work, and learn INDOORS..."

April 16-17, 2014
Holiday Inn by the Bay
Downtown Portland

The Maine Indoor Air Quality Conference presents critical information for the creation, maintenance, and improvement of energy efficient, healthy, sustainable spaces. If you design, construct, operate or maintain buildings and building systems; if you provide consulting services in or around buildings; if you are responsible for the environmental health of employees, patients, and others; then this conference is for you!
